PROFILE

Full-Stack Web Developer skilled in **Next.js**, **MERN**, **Tailwind CSS**, **React Native**, **Nest.js** and **PostgreSQL**. Experienced in building responsive web applications, integrating APIs, and designing scalable databases. Strong foundation in modern JavaScript and full-stack development.

EDUCATION

2025 – present

Lahore, Pakistan

Bachelors in Computer Science

[Bahria University Lahore Campus](#) 📄

2022 – 2024

Okara, Pakistan

Intermediate in Computer Science

Government Post Graduate College, Okara

2020 – 2022

Okara, Pakistan

Matriculation

Government M.C. High School, Okara

EXPERIENCE

Full Stack Developer Intern | MAGMA3C

Lahore, Pakistan

- Developed and optimized key modules for enterprise and educational portals including **Exam Portal** (portal.exam.com.pk) and **FAM Pakistan** (pakistan.fam.pk).
- Contributed to the development of a software product marketplace [AppStore](#), implementing responsive UI components, product listing pipelines, and API integrations.
- Collaborated on full-stack feature delivery, state management, and backend data flows.

PHP & WordPress Developer | ETechLogics

Lahore, Pakistan

- Built and maintained dynamic websites and custom WordPress solutions over a 1-year tenure.
- Developed custom PHP scripts, tailored WooCommerce workflows, and integrated third-party REST APIs and payment gateways.
- Managed database queries, theme customizations, and site speed optimizations.

Full-Stack Web Developer (Projects & Self-Learning)

Self-Directed | 2024 – Present

- Designed and developed **full-stack and frontend web applications** using **Next.js**, **Nest.js**, **MERN stack** and **TypeScript**.
- Implemented secure JWT-based authentication and role-based access control across multiple production applications
- Deployed applications on Vercel, Netlify, and GitHub Pages with consistent uptime and version-controlled deployments
- Worked with **REST APIs**, database schema design, and frontend-backend integration
- Used **Git and GitHub** for version control and deployment

SKILLS

Technical:

Frontend: Next.js (App Router), React.js, JavaScript (ES6+) , HTML5, CSS3, Tailwind CSS, React Native

Backend: Node.js, Express.js, Nest.js, REST API fundamentals

Database: MongoDB, MongoDB Atlas

Vision Control: Git, GitHub

Tools: Visual Studio Code, MongoDB Compass, Postman, GitHub, Vercel (Deployment), npm

Soft: Problem Solving, Communication Skills, Self-Learning & Adaptability, Time Management, Team Collaboration

PROJECTS

Kisan Ka Pakistan: Multi-Portal Agri Network

Technologies: *Next.js, NestJS, TypeScript, PostgreSQL, Prisma, Redis, Bcrypt, Cloudinary, AWS*

Developed dedicated modules including a live marketplace, pesticides dashboard, and a secure admin control panel for real-time rates and listing moderation.

Built a comprehensive agricultural platform connecting farmers, dealers, and administration.

Live: [Main App](#) | [Pesticides Portal](#)

MediBook: Doctor Appointment System

Technologies: *Next.js, NestJS, TypeScript, MongoDB, Mongoose, JWT, Bcrypt, Cloudinary, Tailwind CSS*

Full-stack healthcare booking platform with role-based access for Doctors and Patients, secure auth guards, profile management, and Cloudinary media uploads. Deployed on Vercel.

Live: <https://doctor-appointment-system-seven-xi.vercel.app>

Learning Management System (LMS) – MERN Stack

Technologies: *React.js, Node.js, Express.js, MongoDB, Redux Toolkit, JWT, Cloudinary, Tailwind CSS*

Full-stack LMS with JWT authentication, role-based access for Instructors and Students, course CRUD operations, Cloudinary integration for media, and interactive dashboards.

Live: <https://lmsforstudents.netlify.app/>

Wanderlust Travel Platform

Technologies: *Next.js 15, TypeScript, Tailwind CSS, App Router*

Premium travel discovery application with responsive booking engine, smooth animations, SEO optimization, and modern App Router architecture.

Live: <https://travel-web-i7s5.vercel.app/>

URL Shortener API

Tech: *Node.js, Express.js, MongoDB, Mongoose, EJS*

High-performance backend REST API that generates short URLs with unique slugs, persistent MongoDB storage, and instant redirection with async error handling.

CERTIFICATION

React.js Certification Knowledge Gate

- Completed comprehensive training covering **React fundamentals, components, props & state, hooks, and modern frontend development practices**
- Built hands-on projects and practical exercises using **React.js and JavaScript (ES6+)**

ACHIEVEMENTS

- Top **10%** academic performer.
- Built and **deployed** multiple **full-stack** and **frontend** web applications.
- Strong hands-on experience with modern JavaScript frameworks.
- Developed responsive layouts supporting **desktop, tablet, and mobile devices**.
- Deployed applications using **Vercel and GitHub Pages**, ensuring high availability.
- Managed source code using **Git and GitHub** with consistent commit history.
